Download "Alien Zombie Megadeath" on Steam today! Reviews: "Alien Zombie Megadeath" is a platform shoot-em-up that is tough but fair, the zombie hoards spawn in a huge variety of shapes and sizes, and if you choose to run or jump you will do a decent job of eliminating them, while some zombies are slow, others are fast and can dish out a lot of damage. The game is very challenging if you're not using the jetpack and simply holding down the A button, so don't let that fool you, you need to play all three enemy types to unlock all the achievements, the controls are easy to get into but they can be quite tricky if you get the hang of it, the game has so many different game types and controls, The art style is a bit strange to say the least, but it is pretty fun. "Alien Zombie Megadeath" is a solid game that you can definitely recommend to your friends and family. We hope to see you around in the next round of zombie attack, where you will save your friend and open up the wave after wave of aliens. -- Just like zombies! Your survival is at stake because the aliens are taking over the planet. THEM! It's a giant... Platform: Other 21 King Mohegan Publisher: Katch.net

What's new:

is the chief executive officer of New Jersey's biggest health insurer, Health New Jersey, with combined 2008 revenues of \$14.29 billion. His full biography is given on page 7. B. The Patient Protection and Affordable Care Act (PL 111-148) I. The Eleventh Hour for Health Reform A. The End of Public Financing The bipartisan center of gravity for health reform shifted to the Senate on February 25, 2009. The White House sent an important message on a piece of legislation that had been heavily negotiated with Senator Max Baucus (D-MT) that day as he and the leadership wrestled with their own internal leadership struggle on final passage: The health reform legislation will not be able to pass this Congress with public financing unchanged, in either its form or its impact. This is the first time since the mid 1970's that the White House has "cloaked" a political message in this form. Reporters who covered the speech will have their first opportunity since the last time President Bush "cloaked" a political message, September 8, 1999, in "a draft of a speech that later appeared to attack Bill Clinton. The White House said Friday it didn't mean to criticize the President." Even the press corps was confused by this allusive non-revelation. The drift away from public funding of the bill is likely to doom the legislation envisioned by the Senate Finance Committee -- an entitlement program of "universal" health insurance paid for through an income and association adjustment. It is this entitlement component that gives the program the name "Medicare for all" because it is essentially the "universal" health care insurance accorded to seniors, with the added provision that younger persons get access to it by being automatically enrolled. What the proposed new legislation proposes is the euthanasia of Medicare -- the name of the program has been changed from "Medicare for all" to the Government-run health care and socialized, rationed program that it is: The bill would allow 40 million uninsured and low-income people to get the federal government to help pay their health care bill through a pool of accounts that employers can draw on to purchase insurance through a new federal insurance exchange.

Toplitz is a city, built from the top of a hill, far, far away in the west. Its citizens drive around in a wacky futuristic city, gazing at the sky, through holes in a nearby wall. It's a small, peaceful city, home to thousands, perhaps millions of ponies. And it's a city in trouble. The citizens of Toplitz have some very unusual ideas about what might be the right things to do. Some are beginning to take it upon themselves to change the way their city is run. Some think they're heroes, and want to change the world. But a group of gremlins is plotting to take over Toplitz - for their own weird, selfish ends. And the city's inhabitants have to work together to stop them. The gist of the game is, you control a small group of characters trying to influence events, and solve a number of puzzles. Music is provided by The Voices, and will be updated as we develop the game. So, if you want to play an early version that has no music, make sure you grab our demo (included in the full download version). We hope that you enjoy playing this little game of ours. We love playing games on the Mac. And it's extremely flattering when people pick up on them. Toplitz is our first serious attempt to make a game for the Mac. (We also have a number of smaller Mac games that we're working on.) We hope you'll give this game a go, and if you do, please consider sharing your thoughts with us. We're interested in what you think, and what you have to say. We're putting a lot of effort into this game, and we'd love to hear what you think. IMPORTANT NOTE: This is a freeware game, meant for both Mac and Windows. FEATURES Create a player's name in the game (to be used in game log messages - e.g. "I am Hamlet.") Play through an exciting story full of puzzles and comedy. Very atmospheric original soundtrack. Lots of quests to complete. Choose your own skill set (attack, goggle, weapon etc.) Character interaction - over 10,000 lines of dialogue (of which just over 2000 have been written). Puzzles with multiple solutions. Random level generation - no tutorial.
